

Attention All Parents and Guardians!

On Monday, August 21st, 2017 there will be a total solar eclipse that will be seen across much of the USA. Eclipses are relatively rare events that draw significant attention to the academic community.

Due to the nature of the event, precautions will be taken to avoid eye damage. Teachers have access to several websites that they will use to educate your students. There are also links to NASA's live video footage that will take place during the eclipse. Please be assured that your students will remain safe and inside during the duration of the eclipse. Recess will take place indoors and students will be dismissed 10 mins. later than normal for their safety. If you have any questions, you may call the Administration Office at 942-8885.

Below are the stages and times for Hobart, IN

Partial Eclipse when the moon touches the Sun's edge - 11:55am

Maximum Eclipse when the moon is closest to the center of the Sun - 1:20pm

Partial Eclipse when the moon leaves the Sun's edge - 2:43pm

Due to the timing of the last Partial Eclipse, students will be dismissed 10 mins. later than usual.

Expect your car or bus rider to be 10 mins. later than their normal times.
