Children, as young as elementary school should have a **PLAN** for success!

Career Cruising at the elementary level offers two levels of career exploration, K-2 and 3-5. ccSpark! uses a fun educational role-playing game called Sparkdale to help younger students learn about careers, life-planning and social skills. It's unique, age-appropriate and inspiring.

Career Exploration

For younger students, career learning is not about exploring occupations. It's about acquiring essential age-appropriate life skills like self-awareness and understanding how important it is to plan ahead. Career Cruising has tools to help them begin to make a PLAN!

MY GOALS

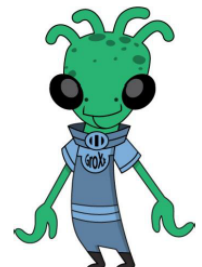

Goal Setting

GOAL SETTING TIPS

Just like Franzen's goal was to find job using is skills in Sparkdale, you can set goals to help yourself succeed and be happy.

Here are some tips that can help you set effective goals:

- Goals are intentional commitments to action, not a wish list.**
"I want to get an A" lacks power. "I will work hard (How), to earn an A," is intentional and powerful.
- Be specific.**
"Find help" is too general. "I will find 5 resources that will help me before the end of the month" is better.
- Share your goals with someone** who cares if you reach them. Sharing your intentions with your parents, your best friend, or your teacher will help ensure success.
- Write down your goals and put them where you will see them.**
The more often you read your list, the more results you get.
- Review and revise your list.**
Experiment with different ways of stating your goals. Goal setting improves with practice!
