## **Reading Strategy**

### *Make a Picture or Mental Image*

When readers listen to or read text, they can create pictures in their mind or make a mind movie. This helps a reader to remember more of what they read or heard.

When reading at home:

~Explain that there are many ways pictures help readers remember what they are reading. They can do this by:

- Thinking about what they know about the text before they read.
- Use sensory details to create mental pictures
- Looking back at the picture in your brain after the story to remember what has happened.

Ask: "What do you see in your mind as I read?, Can you see yourself in this story?, or Explain to me the picture in your mind."

### Thankful

For the past week we have been talking about what we are thankful for. I am thankful for a great group of kids that are eager to learn, want to do their best, keep me on my toes, and bring me incredible joy everyday! Thank You for your support and encouragement in making this a great year for your children. I truly love having them here with me everyday!
