

# Ways to Help at Home

## Reading:

Read, read, read!!! Have your child retell books and answer 'wh' questions. (Who, what, where, when, why).

Remind your child to do the following when reading: read for meaning, envision, predict, and infer.

## Writing:

Create a home journal by sketching and writing about activities and interests.

## Math:

\*Practice addition and subtraction with and without manipulatives.

\*Practice counting money by creating a store at home or playing games such as monopoly.

\*Practice telling time to the hour and half hour.
