Physicians / Surgeons
Physicians and surgeons have demanding education and training requirements. Almost all physicians complete at least 4 years of undergraduate school, 4 years of medical school, and 3 to 8 years in internship and residency programs, depending on their specialty.

Job Outlook

Employment of Registered Nurses and Physicians is expected to grow more than 26% from 2010-2020, faster than the average for all occupations.

Two Types of Physicians:

1. M.D.
(Medical Doctor)
2. D.O.
(Doctor of Osteopathic Medicine).

Both types of physicians use the same methods of treatment, including drugs and surgery, but D.O.s place additional emphasis on the body's musculoskeletal system, preventive medicine, and holistic (whole person) patient care.
