

Best Practices

- + Have all students create a College Board account
- + To prevent the development of duplicate accounts, ensure students use a standard naming convention and easy to remember password (e.g. date of birth and school mascot)
- + Make sure all students have a Khan Academy account
- + Have students download the *Daily Practice for the New SAT* App to their smartphone
- + Promote consistent practice (recommended minimum 30 minutes a day, two times a week)
- + Determine an implementation approach
 - Direct to Students
 - Via College-Access or Community-Based Organization, during school or after school
 - Via School Staff, during school or after school
